

Procurement of wood and wood-based products

Dear Business Partner,

for over 130 years, the renewable material wood has been inextricably linked with Pfleiderer as a company and its employees, customers, and business partners. Sustainable business practices have shaped our corporate culture for decades. This has heightened our awareness, not only to the versatility of this natural raw material, but especially to its value and irreplaceability in nature for countless ecosystems and climate stability.

Pfleiderer Deutschland GmbH and its production locations are certified under PEFC and under FSC® and is thus subjected to the associated regular external controls.

Our certificates: PEFC DINC-PEFC-COC-001049, FSC TUVDC-COC-101049 and TUVDC-CW-101049

Of course, we fulfil the requirements of legal regulations such as EUTR, UKTR and similar, which stipulate the implementation of a due diligence system to prevent the placing on the market of illegal timber or timber products. Pfleiderer will implement the new regulations on deforestation-free products (EUDR) on time and in accordance with all applicable legal requirements.

All chipboards and fibreboards, laminates, elements and special papers available from Pfleiderer Deutschland GmbH as PEFC- or FSC-certified products are subject to meet the strict requirements of Chain-of-Custody-certification described by PEFC and/or FSC. We commit and we strive, to the best of our knowledge and belief, not to procuring materials for our products that come from controversial or unacceptable sources. We thus exclude raw materials originating from

- illegally harvested wood,
- wood harvested in violation of traditional and human rights,
- wood from forests in which high conservation values are threatened by management activities,
- wood from forests being converted to plantations and non-forest use,
- wood from forests in which genetically modified trees are planted.

Further details regarding our ESG principles and our compliance system are available in the document [Pfleiderer ESG Compliance - Brief information](#).

Please feel free to contact us if you need any further information.

We look forward to continuing our good working relationship in the future!
