 PFLEIDERER

MAKE YOUR VISIONS WORK.

WOOD-BASED PANELS THAT OPEN UP NEW PERSPECTIVES.

From design to completed projects, every step counts. After all, designs are only really appealing if they can also be achieved. By choosing Pfleiderer, you're off to the right start. Aesthetic, functional and the perfect design solution. In the 2021-2024 brochure, we introduce you to our extensive product range designed to make you more successful. Stylish, expressive and modern decors, innovative surface textures and core panels all come together perfectly to meet your technical, cost and user requirements. From high quality individual items to sector spanning concepts – you can turn your vision into reality with practical, high quality solutions from Pfleiderer.

**PFLEIDERER SOLUTIONS FOR MEDICAL
AND CARE FACILITIES.**

Justifiably, the highest standards apply in medical and care facilities. In hospitals, surgeries as well as treatment and care facilities, a perfect balance must be achieved between construction, hygiene and also aesthetic requirements. This is where our range of wood-based materials comes into its own – because it offers a uniquely wide portfolio for high quality customised solutions, from stylish decors to functional surface textures and the core material used for construction purposes. Learn more about Pfleiderer's portfolio for medical and care facilities.

MATCHING DESIGNS ACROSS ALL TRADES: IMPRESSIVE EXPERTISE.

When it comes to successful design and functionality combinations, Pfleiderer sets benchmarks. Our materials permit an almost limitless range of combinations – and therefore ensure that ambitious designs can be reliably realised, from the right core material to matching stylish designs perfected by functional finishes on all surfaces.

MORE EXTENSIVE

DEVELOPED WITH PRACTICALITY IN MIND: FROM THE CORE MATERIAL TO A FUNCTIONAL SURFACE FINISH.

Surfaces in medical and care facilities must do more than just look good. Pfleiderer's wood-based materials therefore also contribute the perfect inner values: our range offers the construction and technical properties that are needed to plan and realise entire interior fit-outs with materials obtained from one source, including moisture-resistant and soundproof core materials and materials with structural load-bearing capacities. They also meet all of the special requirements with regard to building regulation fire safety requirements, which is particularly important in public buildings frequented by a large number of people. In short: we offer you a system that makes it possible to realise projects that are safe, matching and high quality throughout.

WELL THOUGHT OUT, LAYER BY LAYER

Pfleiderer's DST system is designed with maximum solution-orientation in mind. This means that, from the surface texture to the decor and the core material, almost all of our wood-based materials can be combined with each other to realise room concepts with matching, robust and low maintenance decors in an economical way that can also do more than just look good.

UNLOCKING NEW PERSPECTIVES IN THE DOOR AREA

A high quality interior design obviously also extends to the doors. In this area, Pfleiderer's wood-based materials also provide well thought out, practical solutions: with materials in all standard formats, from the robust, decorative HPL coating for the door panel cover to the door core material and the door jamb.

However, Pfleiderer also offers an optimum range for extremely wide doors, regardless of whether these lead into rooms or are sliding or operating theatre doors, for a flush look that perfectly meets all hygiene requirements.

MORE HYGIENIC

ADDITIONAL HEALTH PROTECTION: FOR SURFACES SUBJECT TO HEAVY USE.

Pfleiderer's wood-based materials are an excellent choice for meeting the strict hygiene requirements in the healthcare sector. Particularly Duropol HPL can make an important contribution: it is low maintenance and easy to clean, has an inherently antimicrobial effect and can optionally be equipped with the unique antiviral microPLUS® surface finish – without compromises in terms of the other material qualities. Perfectly suitable for interior design elements that call for additional hygiene protection.

INTEGRATED HYGIENE: ANTIMICROBIAL AND ANTIVIRAL SURFACES.

Breaking infection chains can start with choosing the right wood-based material. In high traffic public areas where hygiene requirements are important, simply rely on wood-based panels that actively contribute to health protection to reduce the risk of people becoming infected by pathogens on surfaces. Pfleiderer offers a multi-level protection concept for this purpose.

ADVANTAGES

- Antimicrobial surfaces reduce the risk of people becoming infected with pathogens via surfaces. This additional protection is an advantage, especially when there is a high frequency of visitors and high hygienic demands.
- Our standard HPL products and DecoBoard eliminate 99,9 % of all surface germs within 24 hours. This means that you can also use large parts of our range for sensitive areas – with all the usual advantages in terms of design freedom, processing and other material properties.
 - The innovative microPLUS® surface, which is additionally available for selected products, provides even faster protection: It offers antimicrobial protection within 7 hours – and also acts as an antiviral surface against enveloped viruses within 24 hours!

Pfleiderer’s integrated protection overview

Standard surfaces

- 24 h antimicrobial effect (according to JIS Z 2801 / ISO 22196)

- Bacteria
- Standard surfaces

MORE ADAPTABLE

STRIKING AS WELL AS PERFECT: DECORS THAT UNLOCK POSSIBILITIES.

Medical facilities in particular should be places where people feel comfortable and well cared for. A well-balanced interior design improves the well-being of patients, expresses appreciation of the staff and promotes a positive overall impression. With its stylish decors and functional surfaces, Pfländerer offers the basis for high quality interior design across all trades.

TOP-QUALITY DESIGNS: WOOD-BASED MATERIALS FOR AN APPEALING AMBIENCE.

Pfleiderer’s range of products unlocks scope for a stylish matching design throughout, from a uniquely wide palette of brilliant, finely nuanced plain decors to fascinatingly realistic stone, wood as well as fantasy decors. The DST system ensures that the required decors are available across all trades – from the hardwearing HPL surface to the high quality melamine facing.

Fascinatingly matt

With the innovative FunXTional Products, Pfleiderer proves that matt design concepts can also be realised in a way that meets all requirements in terms of aesthetics, robustness and suitability for everyday use. The Xtreme surface with anti-fingerprint effect uniquely combines high quality plain decors with a soft feel. XTreme plus is a high-pressure laminate that is exceptionally scratch resistant, and therefore also suitable for horizontal contact areas that are subject to heavy use. The respective solution for vertical surfaces is available in the form of PrimeBoard with an innovative multilayered coating.

We also regularly conduct our own trend research and carry out trend analyses to ensure that our decor choice is always up-to-date and therefore fully meets all of the latest standards and requirements.

HEALTHIER LIVING ENVIRONMENT

MORE THAN JUST SURFACES: UNCOMPROMISINGLY ECO-FRIENDLY INTERIOR DESIGN.

Compared to other materials, wood inherently offers a range of advantages when it comes to healthy, sustainable construction. Pfleiderer's wood-based materials make it possible to systematically realise interior designs that make full use of these advantages. With circular economy raw materials and certified low emission products, they meet the highest interior design standards.

DESIGNED FOR A FUTURE WORTH LIVING: SUSTAINABILITY AT PFLEIDERER.

A healthy full range of products

Pfleiderer focuses on low-emission materials, e.g. F**** glued panels for interior design or LivingBoard with formaldehyde-free gluing. Many of our board materials have been awarded the Blue Angel for a healthy indoor climate for many years. At the beginning of 2020, we succeeded in obtaining this award – in addition to raw boards and directly coated products – also for large parts of the HPL range. This means that you can also fall back on a consistently sustainable full product range for demanding projects – and fulfil customer wishes without compromising on ecology and sustainability.

Responsibility for tomorrow starts today

Those who rely on wood as a raw material rightly expect an environmentally conscious “green” material. We at Pfleiderer want to do full justice to this and have therefore been offering an extensive range of low-emission and environmentally friendly products for many years. Sustainability – in addition to ecological, social and economic aspects – as well as careful use of natural resources are permanent pillars of our corporate philosophy. Consistent recycling management and wood recycling ensure that no trees are felled for our products. Through regular independent evaluation of our procurement and production processes, we are able to ensure that we are able to offer our customers the best possible service, manufacturing and logistics processes as well as a corporate culture of accountability. We ensure that you can use our products with a clear conscience and recommend them to your customers.

Through multi-stage wood utilisation (so-called cascade utilisation), wood recycling, and the use of forestry wood and industrial waste wood for high quality materials with a long service life, Pfleiderer conserves valuable resources and actively contributes to reducing carbon emissions, air, water and soil pollution as well as the reduction of energy consumption. We control the wood mix individually, depending on the product, to achieve a perfect balance between quality requirements and resource conservation.

SIMPLY FUNCTIONAL: WELL THOUGHT OUT SOLUTIONS FROM ONE SOURCE.

In medical and care facilities, there are a great number of room situations that call for a perfect balance between functionality and design. In this respect, both stricter hygiene requirements as well as a high level of suitability for everyday use must be met. At the same time, it must be possible to strictly integrate all of the fit-out elements, wall coverings and furniture into overall interior design concepts.

Combining aesthetics, functionality and affordability

When it comes to realising the various requirements of waiting rooms, reception areas and offices reliably and economically with materials sourced from one supplier, the Pfleiderer product portfolio comes into its own: the wide choice of amazing decors, functional surface textures and core materials with load-bearing capacities for construction purposes makes it possible to develop well-balanced overall concepts across all trades – from simple office furniture in a stylish matt look to extremely hardwearing reception counters with an antiviral finish.

PRODUCT OVERVIEW

Here you will find a selection of products specially adapted to your area of application. You can find more products on the detail pages or at www.pfleiderer.com.

Duropol flameprotect compact

These decorative non-combustible non-combustible compact panels are used in the preventive fire-safety area for escape routes or public spaces. In short: wherever non-combustible materials are called for that must also be low-maintenance and attractive.

> p. 55

DecoBoard Pyroex

Flame retardant coated panels for maximum planning security with a wide range of design options thanks to the DST system. Ideal for wall and ceiling panels in public buildings!

www.blauer-engel.de/uz76

> p. 41

Duropol Element Pyroex

With our wide range of fire-safety products, we offer architects and planners not only planning reliability but also plenty of design scope. These flame retardant HPL bonded board is ideal for wall and ceiling panels in public institutions!

> p. 60

Duropol HPL Compact Pyroex, black core

Ideal for projects with increased fire protection requirements, the Pyroex compact panel is suitable for a wide range of applications in public facilities. It is also robust, durable and available in a wide range of decors. As the core is coloured black throughout, open edge solutions can also be implemented.

> p. 53

Duropol HPL Individual Motiv Pyroex

Decorative, robust and flame retardant high-pressure laminate. Ideal for walls, doors, freestanding and fitted furniture in public buildings and retail spaces with higher fire safety requirements.

> p. 49

CORRIDORS AND LIFTS

GROUNDBREAKING CONCEPTS FOR HIGH TRAFFIC AREAS.

To ensure that the high traffic areas look good for a long time to come, Pfleiderer offers hardwearing high-pressure laminates, if required also with a through-coloured core, for long-lasting wall coverings and robust impact protection in corridors, and also for lift cabin interiors.

Standard safety regulation fulfilment

Particular fire safety requirements must be taken into account when designing corridors. Suitably approved products that reliably meet these requirements are available both in the area of high-pressure laminates as well as in the core material range. High quality standards and design scope don't have to be mutually exclusive. Duropal Compact XTreme plus makes it possible to use supermatt surfaces with an anti-fingerprint effect even in areas that are subject to heavy use. Duropal HPL Individual offers the option of realising patterns and individual designs for colour coded guidance systems or large-scale lettering without any quality compromises directly in the material.

PRODUCT OVERVIEW

Here you will find a selection of products specially adapted to your area of application. You can find more products on the detail pages or at www.pfleiderer.com.

PATIENT ROOMS

FUNCTIONAL AND AESTHETIC: EVERYTHING THAT MAKES SURFACES LOW MAINTENANCE.

Patient rooms must meet a wide range of different requirements: they should look attractive, must be easy to clean and at the same time offer all of the functional and technical framework conditions that are needed to look after patients and provide medical care.

Stylish, robust, low maintenance

With extremely hardwearing high-pressure laminates, Pfleiderer offers wood-based materials that are perfectly equipped for the heavy use they will be subject to in everyday hospital life – and at the same time unlock design scope. For high quality furniture and interior fit-out elements, we offer Duropal HPL and Duropal HPL Compact with a black, grey or white through-coloured core, as well as HPL bonded boards on various core materials, and Duropal HPL microPLUS® with an antiviral effect for particularly hygiene-sensitive areas. In order to be able to also integrate areas that are subject to less heavy use into the overall design, Pfleiderer offers a perfectly matching solution in the same decors with DecoBoard.

PRODUCT OVERVIEW

Here you will find a selection of products specially adapted to your area of application. You can find more products on the detail pages or at www.pfleiderer.com.

DecoBoard P2

Our all-rounder – available in many designs and formats! All of the designs in our Express range are available at short notice from stock!

NOTHING WILL COME OUT IN THE WASH: IMPRESSIVE QUALITY.

Wet rooms with a contemporary design, whether patient bathrooms or those used by visitors and staff, directly reflect the hygiene standards of a hospital or care facility.

Systematic moisture resistance

The Pfleiderer product portfolio offers a wide choice of core materials suitable for wet rooms, from low swell and moisture-resistant chipboard cores to medium density fibreboard panels and compact high-pressure laminates. In combination with the wide choice of decors that is typical for Pfleiderer, it is therefore possible to develop robust and at the same time aesthetic solutions for almost all fit-out projects – from the construction of the basic structure to the perfect surface finish.

PRODUCT OVERVIEW

Here you will find a selection of products specially adapted to your area of application. You can find more products on the detail pages or at www.pfleiderer.com.

Duropol HPL Compact, black core

Ideal for projects that call for outstanding robustness, durability and high hygiene standards as well as outstanding material aesthetics. All of the finishes in the Design Collection are available on compact panels as well as HPL and DecoBoard. As the core is coloured black throughout, the material is suitable for solutions with visible edges as well as customised 3D engraving effects.

Melamine faced decor panels with chipboard core for use in humid conditions. Ideal for rooms that are temporarily exposed to a higher level of humidity.

> p. 40

OPERATING THEATRES AND LABORATORIES

UNCOMPROMISINGLY GOOD: TOP PERFORMANCE WHEN IT REALLY MATTERS.

Hygiene is a fundamental requirement when it comes to surgical procedures. Stringent standards apply, especially in operating theatres. A hygiene concept with suitable materials contributes to health protection right from the start.

Fitted hygiene

Duropol HPL and Duropol HPL Compact make it possible to systematically realise designs that meet the most challenging requirements in terms of robustness, low maintenance and hygiene. The extremely hardwearing melamine resin surface is protected against external influences, and can also withstand regular disinfection – even with aggressive substances. The high-pressure laminate comes with an antimicrobial coating as standard, and can also be used in the version Duropol HPL microPLUS®, which has a proven antiviral effect that reduces the risk of infection from pathogens on surfaces, if required.

PRODUCT OVERVIEW

You'll find a selection of products here designed specifically for your requirements in a particular area of use. You can find more products on the detailed pages or at www.pfleiderer.com.

Duropol HPL

High-pressure laminates in a wide range of selected DST system finish and texture combinations on DecoBoard products. The entire Design Collection is available from stock. Minimum offcut thanks to a range of formats from standard to non-standard widths, for example also suitable for doors.

NEXT, PLEASE: CREATING IDEAL WORKING CONDITIONS.

Everyday life in medical and healthcare facilities can be hectic from time to time: emergencies, packed waiting rooms, tight shift schedules. It is therefore important that as many things as possible run smoothly. Thanks to their excellent hygienic properties, Pfleiderer's wood-based materials can make an important contribution in this regard.

Made with the practical aspects in mind

Whether sideboards, counters or laboratory furniture: Duropal HPL creates the basis for a hygienic working environment with low maintenance and robust furniture and interior design element surfaces that are also easy to clean. However, with DecoBoard, there is also always an economical version for vertical applications – for sensitive areas also as DecoBoard P2 F****, bonded with a low formaldehyde content adhesive.

DecoBoard Pyroex

Flame resistant particleboard with decorative melamine resin facing on both faces, awarded with the Blue Angel.

AREAS OF APPLICATION

Preventive fire protection in the decorative sector. For interior fitting as wall and ceiling coverings, installations, room dividers and furniture, in industrial and administrative buildings, schools, sports and festival halls, hotels and care facilities.

PRODUCT FEATURES

Product standard	EN 14322
Core material	PremiumBoard Pyroex Flame resistant particleboard, suitable for non load-bearing purposes in dry areas, for interior fitting and for furniture subject to higher demands on fire protection.
Reaction to fire	Flame retardant B-s1,d0 (EN 13501-1)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,655	2,100	10 13 16 18 19 22 25 28 38
2,800	2,100	16 19

5,600	2,100	16 19

DecoBoard MDF.MR

Medium-density fibreboard with uniform construction, reduced swelling behaviour and decorative melamine resin facing on both sides (MR = Moisture Resistant = with improved swelling values for damp areas).

AREAS OF APPLICATION

Carcass and front quality for furniture manufacture, shop fitting and interior design with higher demands on moisture resistance. Edges can be profiled and lacquered.

PRODUCT FEATURES

Product standard	EN 14322
Core material	StyleBoard MDF.MR Medium-density fibreboard (MDF) in accordance with EN 622-1, with uniform structure.
Reaction to fire	D-s2,d0 according to EN 13986 dependent on end use (Thickness: ≥ 9 mm / Gross density: ≥ 600 kg/m³)
Formaldehyde emission class	E1 E05 CARB Phase 2 / TSCA Title VI
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,655	2,100	18 19
5,310	2,100	18 19

Duropal HPL

Decorative high-pressure laminate in postforming quality according to EN 438-3:HGP/VGP, with robust melamine resin surface and sanded reverse.

AREAS OF APPLICATION

Surface material for high quality kitchen and office furniture, for walls and doors, furniture and installations in retail and recreational facilities, in the restaurant sector, in administration buildings, day nurseries, schools, sanitary, clinical or laboratory sectors. Particularly where high demands are made on sturdiness, ease of care and hygiene.

PRODUCT FEATURES

Product standard	EN 438-3
Reaction to fire	Normally flammable Euroclass D-s2,d0 or worse in connection with normally and easily inflammable core boards. (EN 13501-1, CWFT acc. to 2003/593/EG)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness

Duropol HPL microPLUS®

Decorative high-pressure laminate in postforming quality according to EN 438-3:HGP/VGP, with robust melamine resin surface and an antimicrobial and antiviral surface finish (Sanitized Silver) and sanded reverse.

AREAS OF APPLICATION

Surface material for high quality kitchen and office furniture, for walls and doors, furniture and installations in retail and recreational facilities, in the restaurant sector, in administration buildings, day nurseries, schools, sanitary, clinical or laboratory sectors. Particularly where high demands are made on sturdiness, ease of care and hygiene.

PRODUCT FEATURES

Product standard	EN 438-3
Reaction to fire	Normally flammable Euroclass D-s2,d0 or worse in connection with normally and easily inflammable core boards. (EN 13501-1, CWFT acc. to 2003/593/EG)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 7 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Antiviral effect	Surface with antiviral effect against enveloped viruses in 24 h for interior fit-out and finishes – Test Methodology ISO 21702:2019
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	Sanitized Silver is based on the natural effect of silver, embedded in a patented glass-ceramic. This additive is free of nanoparticles and is incorporated as a dispersion into the resin of our decor / overlay papers. Sanitized Silver remains in the product and does not wash out. The effect is ensured over the whole life cycle of the product. FSC certification or PEFC certification available on request.

5,300	1,300	0.6 0.8 1.2

Duropol XTreme plus

Decorative high-pressure laminate in standard quality in accordance with EN 438-3:HGS/VGS, with robust, electron beam cured surface and sanded reverse. Duropol XTreme plus is an attractive supermatt surface material with an anti-fingerprint effect, which is ideal for horizontal, heavily used surfaces.

AREAS OF APPLICATION

Attractive surface material, appropriate for surface and edge applications providing the high-performance features of the well-known Duropol HPL products. Duropol XTreme plus is suitable for vertical applications as well as for horizontal, heavily-used contact surfaces.

PRODUCT FEATURES

Product standard	In accordance with EN 438-3
Reaction to fire	Normally flammable Euroclass D-s2,d0 or worse in connection with normally and easily inflammable core boards. (EN 13501-1, CWFT acc. to 2003/593/EG)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness

4,100	1,300	0.8
5,300	1,300	0.8

Duropol HPL Individual Motiv

High-pressure laminate in standard quality with individual digital printed motifs in accordance with EN 438-3:HGS/VGS. The reverse is sanded ready for gluing. Our well-known Individual world from just 1 piece upwards, where your image files can be used as a motif.

AREAS OF APPLICATION

Durable surface material for creative furniture design and the interior fitting of shops and stores, cafés and bistros, educational and recreational facilities, doctors’ surgeries and clinics. The material is not suitable for use outdoors.

PRODUCT FEATURES

Product standard	In accordance with EN 438-3
Reaction to fire	Normally flammable Euroclass D-s2,d0 or worse in connection with normally and easily inflammable core boards. (EN 13501-1, CWFT acc. to 2003/593/EG)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	Maximum motif format per board, incl. overprinting: 2,750 mm x 2,030 mm. Larger motifs can be tiled. Cut to size is not available. Colour differences can occur in follow-up production lots. FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	1.2

Duropol HPL Individual Dekor

High-pressure laminate in postforming quality with individual digital printed motifs according to EN 438-3:HGP/VGP. The reverse is sanded ready for gluing. Would you like to take colour ideas from our Inspiration Dekor collection or do you have your own decor proposals? Then Individual Dekor fits your requirements. This applies to requirements in industrial quantities in our cylinder print colour spectrum.

AREAS OF APPLICATION

Durable surface material for creative furniture design and the interior fitting of shops and stores, cafés and bistros, educational and recreational facilities, doctors’ surgeries and clinics. The material is not suitable for use outdoors.

PRODUCT FEATURES

Product standard	EN 438-3
Reaction to fire	Normally flammable Euroclass D-s2,d0 or worse in connection with normally and easily inflammable core boards. (EN 13501-1, CWFT acc. to 2003/593/EG)

Duropol HPL Pyroex

Decorative high-pressure laminate in flame retardant quality according to EN 438-3:HGF/VGF, with robust melamine resin surface and sanded reverse.

AREAS OF APPLICATION

Flame retardant surface material for walls and doors, furniture and installations in public buildings and special constructions, such as rail-way stations and airports, retail and recreational facilities, public areas, hotels, schools, care home facilities and hospitals.

PRODUCT FEATURES

Product standard	EN 438-3
Reaction to fire	Flame retardant grade C-s1,d0 (EN 13501-1) Depending on the core material and adhesive used, HPL flat bonded elements may have a different classification. We recommend the use of the product Duropol Element Pyroex.
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	0.8 1.2

Duropol HPL Individual Motiv Pyroex

High-pressure laminate in flame retardant quality with individual digital printed motifs in accordance with EN 438-3:HGF/VGF. The reverse is sanded ready for gluing. Our well-known Individual world from just 1 piece up-wards, where your image files can be used as a motif.

AREAS OF APPLICATION

Flame retardant surface material for the trade fair, shop and event sector, for public buildings and special constructions, hotels, schools, doctors' surgeries and clinics. Whenever special demands are made on the individual design, the ease of care or durability in addition to the constructional fire protection.

PRODUCT FEATURES

Product standard	In accordance with EN 438-3
Reaction to fire	Flame retardant grade C-s1,d0 (EN 13501-1) Depending on the core material and adhesive used, HPL bonded boards may have a different classification. We recommend the use of the product Duropol Element Pyroex.
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196

Duropol HPL Compact, white core

Compact high-pressure laminate in standard quality according to EN 438-9:BCS. With uniform white-coloured core and decorative melamine resin surface on both sides.

AREAS OF APPLICATION

For unusual furniture and interior concepts in the home and contract sectors, in leisure and spa facilities, in shop design, in catering, as well as in humid and wet conditions in which particular robustness, durability and high hygienic standards including aesthetics are required of the material. The material is suitable for open edge solutions as well as for engraving for individual 3D effects.

PRODUCT FEATURES

Product standard	EN 438-9
Core material	Compact laminate white core Uniform white through-pigmented solid compact laminate core, impact resistant and moisture resistant for applications with high specification demands.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG): 2,800 x 2,070 x 6 – 15 mm, 4,100 x 1,300 x 6 – 12 mm
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,400 kg/m³ (EN ISO 1183-1)
Note	2,800 x 2,070 mm – FSC certification or PEFC certification available on request. 4,100 x 1,300 mm – With PEFC-certification.

4,100	1,300	6 8 10 12

Duropol HPL Compact, grey core

Compact high-pressure laminate in standard quality according to EN 438-9:BCS. With uniform grey-coloured core and decorative melamine resin surface on both sides.

AREAS OF APPLICATION

For unusual furniture and interior concepts in the home and contract sectors, in leisure and spa facilities, in shop design, in catering, as well as in humid and wet conditions in which particular robustness, durability and high hygienic standards including aesthetics are required of the material. The material is suitable for open edge solutions as well as for engraving for individual 3D effects.

PRODUCT FEATURES

Product standard	EN 438-9
Core material	Compact laminate grey core Uniform grey through-pigmented solid compact laminate core, impact resistant and moisture resistant for applications with high specification demands.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,400 kg/m³ (EN ISO 1183-1)
Note	With PEFC-certification.

FORMAT IN MM

Duropol HPL Compact, black core

Compact high-pressure laminate in standard quality according to EN 438-4:CGS. With uniform black-coloured core and decorative melamine resin surface on both sides.

AREAS OF APPLICATION

For unusual furniture and interior concepts in the home and contract sectors, in leisure and spa facilities, in shop design, in catering, as well as in humid and wet conditions in which particular robustness, durability and high hygienic standards including aesthetics are required of the material. The material is suitable for open edge solutions as well as for engraving for individual 3D effects.

PRODUCT FEATURES

Product standard	EN 438-4
Core material	Compact laminate black core Uniform black through-pigmented solid compact laminate core, impact resistant and moisture resistant for applications with high specification demands.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG): 2,800 x 1,860 x 6 – 15 mm, 2,800 x 2,070 x 6 – 15 mm, 4,100 x 1,300 x 6 – 15 mm, 5,600 x 2,070 x 6 – 13 mm
EC scope	EN 438-7:2005 Compact laminate intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	2,800 x 1,860/2,070 mm; 5,600 x 2,070 mm – FSC-certification or PEFC-certification available on request. 4,100 x 1,300 mm – With PEFC-certification.

FORMAT IN MM

Length	Width	Thickness
2,800	1,860 2,070	4 5 6 8 10 12 13 15

5,600	2,070	4 5 6 8 10 12 13

Duropol HPL Compact Pyroex, black core

Compact high-pressure laminate in flame retardant quality according to EN 438-4:CGF. With uniform black-coloured core and decorative melamine resin surface on both sides.

AREAS OF APPLICATION

Preventive fire protection in interior design, for damp and wet areas and wherever outstanding durability of the material is demanded, e.g. as wall protection. Also for furniture and installation elements, particularly when low material cross-sections or open edge solutions are required as part of fire protection concepts.

PRODUCT FEATURES

Product standard	EN 438-4
Core material	Flame retardant compact laminate black core Uniform black through-pigmented solid compact laminate core, suitable for applications with high requirements for the surface spread of flame.
Reaction to fire	Flame retardant grade C-s2,d0 (EN 13501-1): 2,800 x 2,070 x 4 – 6 mm, 5,600 x 2,070 x 4 – 6 mm B-s1,d0 (EN 13501-1): 2,800 x 2,070 x 8 – 15 mm, 5,600 x 2,070 x 8 – 13 mm
EC scope	EN 438-7:2005 Compact laminate intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³ (EN ISO 1183-1)
Note	FSC certification or PEFC certification available on request.

Duropol Compact XTreme plus

Compact high-pressure laminate in standard quality in accordance with EN 438-4:CGS or EN 438-9:BCS. With uniform black-, grey- or white-coloured core and electron beam cured surface on both sides. Duropol Compact XTreme plus is an attractive supermatt compact material with an anti-fin-gerprint effect, which is ideal for horizontal, heavily used surfaces.

AREAS OF APPLICATION

For unusual furniture and interior concepts in the home and contract sectors, in leisure and spa facilities, in shop design, in catering, as well as in humid and wet conditions in which particular robustness, durability and high hygienic standards including aesthetics are required of the material. The material is suitable for heavy-duty, horizontal surfaces, open edge solutions as well as for engraving for individual 3D ef-fects.

PRODUCT FEATURES

Product standard	Black core: In accordance with EN 438-4 White / grey core: n accordance with EN 438-9
Core material	Compact laminate black / grey / white core Uniform black / grey / white through-pigmented solid compact laminate core, impact resist-ant and moisture resistant for applications with high specification demands.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG)
EC scope	Compact laminate black EN 438-7:2005 Compact laminate intended for internal wall and ceiling finishes (including suspended ceil-ings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Density	Min. 1,350 kg/m³, min. 1,400 kg/m³ (EN ISO 1183-1)
Note	With PEFC-certification.

Duropol flameprotect compact

Non-combustible fire protection panel of primarily mineral constituents with uniform white-coloured core and decorative melamine resin surface on both sides in accordance with EN 438-4.

AREAS OF APPLICATION

For universal use in preventive fire protection to reduce the spread of flame. Particularly useful where non-flammable materials are required and high demands are made on the design and ease of care. The area of application covers decorative interior fitting as furniture, installa-tions and wall coverings in corridors and stairways (escape routes) in standard buildings, but also for higher demands in special buildings such as high-rise apartment blocks, large office buildings, hospitals, care facilities, schools, day nurseries, hotels, sales rooms and public ar-eas, etc. Use in wet areas and outdoors, as well as mechanical surface stress, is not recommended.

PRODUCT FEATURES

Product standard	In accordance with EN 438-4
Core material	Mineral compact laminate Compact core of primarily mineral constituents with outstanding strength properties. Suita-ble for areas subject to particularly high demands of fire protection.
Reaction to fire	Non-combustible A2-s1,d0 (EN 13501-1)
Formaldehyde emission class	E1 E05
Density	1,900 kg/m³ ± 50 kg/m³ (EN ISO 1183-1)
Note	Please comply with information for the Duropol flameprotect compact collection at www.pfleiderer.com .

Duropol Element P2

HPL bonded boards consisting of a particleboard type P2 to EN 312, surfaced on both sides with Duropol HPL.

AREAS OF APPLICATION

Furniture production and interior design wherever high demands are made on quality and durability: For kitchen and interior design furniture, in shop fitting and partition wall construction, for interior fitting of banks, offices, schools, clinics, laboratories, retail buildings, in ship-building and motor vehicle construction.

PRODUCT FEATURES

Product standard	EN 13894-1
Core material	ClassicBoard P2 Urea resin-bonded particleboard, type P2 in accordance with EN 312, suitable for non load-bearing purposes in dry areas. ClassicBoard P2 CARB2 Low emission particleboard core, type P2 in accordance with EN 312, suitable for non load-bearing purposes in dry areas.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG): 2,800 x 2,070 x 16 – 25 mm, 3,050 x 1,300 x 19 mm, 4,100 x 1,300 x 16 – 25 mm, 5,600 x 2,070 x 16 – 25 mm
EC scope	EN 438-7:2005 HPL composite panel intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

Duropol Element Pyroex

Flame resistant HPL bonded boards consisting of a particleboard with improved flame resistance, surfaced on both sides with Duropol HPL Pyroex.

AREAS OF APPLICATION

Furniture and interior fitting

Fire protection

Wherever high demands are made on quality and durability in addition to preventive fire protection in decorative interior design. For wall coverings, installations and interior furnishing in industrial, sales and administration buildings, in recreational facilities and public areas, such as schools, sports and festival halls, cinemas, discotheques, hotels, hospitals and care home facilities.

PRODUCT FEATURES

Variety of decors and / or textures

Easy care

Antimicrobial

Food harmless

Flame retardant

Product standard	EN 13894-1
Core material	PremiumBoard Pyroex Flame resistant particleboard, suitable for non load-bearing purposes in dry areas, for interior fitting and for furniture subject to higher demands on fire protection.
Reaction to fire	Flame retardant C-s2,d0 (EN 13501-1)
EC scope	EN 438-7:2005 HPL composite panel intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	17.6 20.6

Duropol Element P2 ESA

Electrostatically dissipative HPL bonded boards consisting of a ESA particleboard type P2 to EN 312, surfaced on both sides with Duropol HPL ESA.

AREAS OF APPLICATION

Furniture and interior fitting

The products from our ESA system are indispensable wherever electrostatic charges are to be prevented. The conductive constituents in the core plate and facing ensure a reliable and simple earthing possibility for furniture components and worktops in ESD areas, on production and assembly lines, in laboratories or central control rooms.

PRODUCT FEATURES

Easy care

Electrostatically dissipative

Product standard	EN 13894-1
Core material	PremiumBoard P2 ESA Electrostatically dissipative particleboard, Type P2 according to EN 312, suitable for interior fitting and furniture, for non load-bearing purposes in dry areas.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG): 2.800 x 2.070 x 20,6 mm, 5.600 x 2.070 x 20,6 mm
Formaldehyde emission class	E1 E05
Volume resistance RD	1 x 10 ⁻⁴ -1 x 10 ⁰ Ohm (EN 61340-5-1) Measured dry, measurement voltage 100 V DC, cylindrical electrode, 20–30 °C and 20–50% rel. humidity (96 h conditioning)
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	20.6 39.6

Duropol Element P3

HPL bonded boards consisting of a moisture-resistant particleboard type P3 to EN 312 for damp areas, surfaced on both sides with Duropol HPL.

AREAS OF APPLICATION

Ideal for surfaces in furniture production and interior fitting where exceptional sturdiness and moisture resistance is required: For kitchen and bathroom furniture, elements in sanitary areas, in shop fitting and interior design construction, in clinics and laboratories plus workplaces such as in the foodstuffs processing industry.

PRODUCT FEATURES

Variety of decors and / or textures

Easy care

Antimicrobial

Food harmless

Low swelling / moisture resistant

Product standard	EN 13894-1
Core material	ClassicBoard P3 Melamine resin bonded particleboard type P3, suitable for non load-bearing purposes in damp areas.
Reaction to fire	Normally flammable D-s2,d0 (EN 13501-1, CWFT acc. to 2003/593/EG)
EC scope	EN 438-7:2005 HPL composite panel intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	17.6 19.6 20.6 39.6
4,100	1,300	17.6 20.6
5,600	2,070	17.6 19.6 20.6 39.6

Duropol Element MDF Pyroex

Flame resistant HPL bonded boards consisting of a medium-density fibre-board (MDF) with uniform structure to EN 622-1, surfaced on both sides with Duropol HPL Pyroex.

AREAS OF APPLICATION

Furniture and interior fitting

Fire protection

Wherever a durable, outstanding surface quality – for profiling and lacquering – is required in conjunction with improved fire protection: For furnishings and installations in sales and recreational facilities, public buildings, special buildings and public areas, also in the trade fair and event sector.

PRODUCT FEATURES

Variety of decors and / or textures

Easy care

Antimicrobial

Food harmless

Flame retardant

Product standard	EN 13894-1
Core material	StyleBoard MDF Pyroex Flame resistant, medium-density fibreboard (MDF) according to EN 622-1, with uniform structure and outstanding surface stability.
Reaction to fire	Flame retardant C-s2,d0 (EN 13501-1)
EC scope	EN 438-7:2005 HPL composite panel intended for internal wall and ceiling finishes (including suspended ceilings)
Formaldehyde emission class	E1 E05 CARB Phase 2 / TSCA Title VI
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Note	FSC certification or PEFC certification available on request.

FORMAT IN MM

Length	Width	Thickness
2,800	2,070	17.6 20.6

Duropol Worktop Quadra

Worktop consisting of a particleboard to EN 312, decor side bonded with robust Duropol HPL according to EN 438 or Duropol XTreme / Duropol XTreme Touch with an electron beam cured surface in accordance with EN 438, underside with water-repellent backing. The postforming front edge of the Quadra worktop has a radius of 3 mm, the rear edge is sealed with a protective edge. It is also available as a variant with both sides profiled. Duropol XTreme as well as Duropol XTreme Touch are an attractive supermatt surface material with an anti-fingerprint effect.

AREAS OF APPLICATION

Duropol worktops can be used wherever very high demands are made on surface resistance and durability. Thanks to their hygienic advantages, the classic areas of application are in modern kitchens and bathrooms, canteens and restaurants, as well as doctors’ surgeries, in laboratories and shop fitting, but also for industrial and commercial workplaces.

PRODUCT FEATURES

Product standard	EN 13894-1
Core material	ClassicBoard P2 CARB2 Low emission particleboard core, type P2 in accordance with EN 312, suitable for non load-bearing purposes in dry areas. ClassicBoard Hydrofuge MR CARB2 Low Emission urea resin-bonded furniture board with reduced thickness swelling according to DIN EN 312, suitable for non-load-bearing use in humid conditions.
Formaldehyde emission class	E1 E05 CARB Phase 2 / TSCA Title VI
Antimicrobial effect	Surface with antimicrobial effect in 24 h for interior fit-out and finishes – Test Methodology JIS Z 2801 / ISO 22196
Antiviral effect	Surface with antiviral effect against enveloped viruses in 24 h for interior fit-out and finishes - Test Methodology ISO 21702:2019
Note	You can find comprehensive accessories for our worktop range at www.pfleiderer.com . FSC certification or PEFC certification available on request.

UNCOMPROMISINGLY GOOD: AT PFLEIDERER QUALITY HAS A SYSTEM.

You can rely on security and transparency

Producing wood-based materials sustainably and in the highest quality is a challenge. As a leading company in the wood industry, Pfleiderer faces up to this challenge at all levels – and with traditional entrepreneurial diligence. With modern production sites, an integrated management system for quality, environment, energy and safety, and a corporate culture that continuously develops these values. Because for us, the compatibility of quality and sustainability is a matter of course!

In concrete terms, this means that we certify our processes throughout the entire value chain – often far beyond what is legally required. We attach great importance to being as transparent as possible for our customers and partners. Our environmental management systems at our locations are certified according to DIN ISO EN 14001 and ISO 50001. Also we belong to the Quality Association for Wood-based Panels and have certifications according to FSC® (License Code: FSC® C011773) and PEFC (License Code: PEFC/04-32-0828). And if you want to know more, just contact us. We will be happy to give you detailed information!

OTHER USES

You will find more detailed information about the areas where Pfleiderer's wood-based materials can be used in our sector brochures.

Kitchen

Doors

Home & Living

Hospitality
& Catering

Office & Education

Shop & Exhibition

Timber Construction

Suitable concepts for all areas of use

Each industry sector follows its own rules – also when it comes to the wood-based materials it uses. If they are to represent a genuine added value, their aesthetics, workability and functionality must be just right. Precisely this is the idea of Pfleiderer's areas of use. We present sector-specific coordinated product and material solutions that make it possible for you to overcome your challenges – from interior and exterior to construction uses.

You can simply download the brochures from **pfleiderer.com** via a QR code, or order them via the sample shop.

DIGITAL TOOLS

ILLUSTRATIVE AND RESULTS-DRIVEN: DIGITAL SERVICES FROM PFLEIDERER

The digital world has even opened up new possibilities and advantages when working with wood-based panels. Pfleiderer offers its partners a wide range of tools that make selecting, designing, planning, visualising and realising projects significantly easier. Find out about our digital services – you'll never want to be without them again.

WorkApp

workapp.pfleiderer.com

The quickest way to find the answers to all your decor-related questions: simply open the DecorScanner on your smartphone, scan the decor, view detailed information straight away on your phone, receive combination recommendations and request the matching sample directly from the app, if required. It is compatible with all smartphones and, of course, you can also easily add the app to your home screen.

Digital Product Finder

productfinder.pfleiderer.com

Which decorative panel is best suited to which application? Which product has particular material properties or surface characteristics? What is available quickly? Use the digital productfinder to find the perfect material for your application in just a few steps. After all, bringing together creative ideas with construction requirements is what Pfleiderer does best!

Solution Guide

pfleiderer.com/global-en/solutions/furniture-and-interior-fitting/health-care

Your perfect solution is just a few clicks away! Simply select components, surface properties and decor. Done! We will then recommend the ideal Pfleiderer materials for your project. You can also order samples of your selection via the Solution Guide and arrange a personal consultation.

Room Designer

roomdesigner.pfleiderer.com

Combine all the decor collections in 26 different digital room layouts – and show your customers in advance how bespoke design options could look in their home, health or care setting, office, hotel, shop, caravan or yacht. Easy to use, with detailed decor lists and smart filters as well as an interactive compare function. You can print and download the results or save them as favourites.

Moodboard Tool

moods.pfleiderer.com

Get the first glimpse of your desired decor before you order! Just upload your own image to our Moodboard Tool. The tool extracts the colours from your motif and suggests suitable decors from our portfolio. You can then save your created Moodboard in your account or send it via e-mail in order to discuss the selection further.

3D-Viewer

3d-viewer.pfleiderer.com

In order to properly evaluate a surface texture, you have to be able to see it from different angles. That's why we provide the 3D VIEWER for surface textures! It enables you to get a realistic 360-degree view of our surface textures from all sides and in different lighting conditions. A useful tool for everyone who appreciates quick and illustrative support when evaluating and deciding on different textures!

Individual Configurator

individual.pfleiderer.com

The idea behind Pfleiderer's individual design concept is to enable almost unlimited creative freedom starting from a lot size of one. It allows you to use your own motifs – without compromising on the quality of the surface or core materials. You can use the Individual Product Finder to configure your unique product easily online, from selecting the core material to uploading your motif and enquiring about production.

BIM Data

pfleiderer.com/bim

Simply transfer product information, decor and texture images into your digital project planning.

Declarations of performance

pfleiderer.com/declarations-of-performance

In this area, you'll find a digital version of all relevant declarations of performance.

Eco Product Insights

pfleiderer.com/eco-product-insights

100 % transparent sustainability: all information on certificates, emission classes and recycled wood content is available at a glance.

You'll also find everything you need to know about the digital tools at **pfleiderer.com**

Order samples online at any time:
